

Gents,

Starting Wednesday (Sept 22) we will only be allowed to let fully vaccinated clients enter the clubs.

This is a government mandate and if we want to remain open then we have to check. (please do not debate this or throw shade at us as it is not our policy). This is the same requirement that will be everywhere else (gyms, restaurants, etc.)

There are no exceptions to this vaccination entry requirement.

So; checking for vaccination status is now in addition to all of the operating procedures are still in place (masks, contact tracing, distancing, etc.). There have not been any updates (yet) from the government outlining which COVID protocols will be relaxed.

You will need to show:

- 1) Proof of second vaccination shot that was administered two weeks prior to entering the club (you can enter the club on the 15th day after);
- 2) Valid, non-expired Government photo ID (we will not keep record of it; only need it to see it to confirm the information against your vaccination proof).

For vaccination proof we will accept:

- 1) A printed copy (preferred) or;
- 2) A pic on your phone

Whatever you present has to be easily legible for the attendant.

If we can't easily read or understand the information being presented you will NOT be allowed in.

The attendant has the full authority to deny entry so please make our job quicker and easier by having your information ready and easy to read.
